REACH DECLARATION

INTRODUCTION

On 1st June 2007 entered into force a European Union regulation called REACH (Registration, Evaluation, Authorisation and Restriction of Chemical substances), EC N ° 1907/2006. The purpose of this Act is to improve safeguard of health and the environment by empowering the industries on the management of chemicals.

For more information, visit the website <http://reach.jrc.it/>

DECLARATION

The company

CAVI F.E.R.M.I. srl
Via La Bionda, 2
43036 Fidenza (PR)

is a downstream: it does not produce or import chemicals, and it is not involved in the pre-registration and subsequent registration.

Cavi F.E.R.M.I. applies -for what is in its competence- REACH regulation scrupulously adhering to the following points:

- it controls verify that the suppliers of raw materials adhere on time and manner as required by the REACH regulation (pre-registration and registration);
- it updates and archive MSDSs for raw materials;
- it checks for updates on future regulatory and compliance (see list of substances SVCH-substances of very high concern). This action allows to identify and communicate the presence of substances classified as SVHC: at the moment any substance exceeds the permitted limit concentration of 0.1%.

The full implementation of REACH will be in 2018, so throughout this period of time we will keep you informed of progress on both the performance from our suppliers and the regulation.

Fidenza, 09/04/2010
